Hi Jose.

I "manually" added the assessments for the two parcels. For whatever reason, they had not been ported over from the old BID App.

Systems is looking into generating two big lists of APNs and their 2020 assessments from the old and new BID Apps so I can compare them to confirm that all the assessments for 2020 are in place.

Good morning,

I did another "County" extraction from the BID application this morning.

Parcels 5408025900 & 5408027902 for Chinatown are not showing up on the extraction.

I am going to upload the County billing without Chinatown to see how that goes.

We need to find out what's going on with those two Chinatown parcels to do a complete upload otherwise their assessment is going to be about 7K short.

Thank you
